## **FEEDBACK**

Development of children is like building a house, some days you will see visible development, some days it is not so visible – like the curing process of building. This does not mean that there is no development. Without that curing process, the building (learning process) will collapse.

There is no necessity to check with teachers on a daily basis. Never ask the child what they learnt when they reach home. Instead, after playing sometime with the child, ask the child to teach parents/ grandparents what he/she learnt. The child will react favourably

The point of contact in the school for all child related issues are

The Academic Director  
&  
Coordinators

The Krisar Academy will interact with you whenever it needs to inform you something about your child.
